### Debt Instruments & Bonds

Insulate your portfolio against market turbulence. A reliable framework designed to temper volatility and secure a steady cash flow.

- **Reliable Cash Flow:**

Allocate capital to sovereign debt, corporate bonds, and treasury bills that deliver locked-in interest distributions and guaranteed maturity values.

- **Principal Protection:**

Safeguard your initial investment by choosing top-tier issuers and government-guaranteed securities.

- **Institutional-Grade Transparency:**

Evaluate opportunities confidently with clear visibility into credit ratings, duration metrics, and issuer compliance history.

- **Asset Balancing:**

Anchor your wealth by balancing high-growth equities with low-risk, interest-bearing assets.

---

### Prohibited Financial Instruments

Please note that **Phillip Ventures IFSC GAP** maintains strict compliance protocols and does not facilitate trading in the following asset classes:

- **Cryptocurrencies:**

Cryptocurrencies, tokens, or any financial instruments derived from crypto underlying.

- **Restricted Derivative Contracts:**

Global index derivatives, single-stock futures/options, bond derivatives, or currency derivatives (such as USD-INR / INR-USD pairs) that are currently listed on Recognized Stock Exchanges within the IFSC.

- **Non-Approved Asset Classes:**

Any other structured products or tokens that do not qualify under the official definition of "financial products" within the IFSC framework.
